

Technical Data Sheet

Fresh Air Light Duty Hose L 20 / 20m

Order no.:	155 812						
Product designation:	Fresh air light duty hose L 20 / 20m						
Applied standard:	DIN EN 138 (DIN = German Institute for Standardization)						
Utilization:	Use as fresh air light duty hose in connection with Unassisted fresh air hose breathing apparatus 6500 and Fresh air hose breathing apparatus 6501. The scope of protection is determined by the product information, technical standards and valid application rules.						
Description:	The fresh air light duty hose made from soft plastic with integrated spiral made of especially robust plastic. The fresh air light duty hose leads the required breathable air from an area beyond the contaminated surrounding atmosphere to the facepiece of fresh air hose breathing apparatus 6500/6501.						
Materials:	<table><tr><td>Spiral coiled tube</td><td>Soft plastic</td></tr><tr><td>Hose sleeves</td><td>Steel</td></tr><tr><td>MS-Coupling</td><td>Brass</td></tr></table>	Spiral coiled tube	Soft plastic	Hose sleeves	Steel	MS-Coupling	Brass
Spiral coiled tube	Soft plastic						
Hose sleeves	Steel						
MS-Coupling	Brass						
Weight:	approx. 5500 g						
Operating pressure:	max. 7 bar						
Resistance to temperature:	-5°C to +60°C						
Marking:	Manufacturer Product designation Manufacture year and -month						
Handling:	Take the fresh air light duty hose from the storage case directly before use. Use the fresh air light duty hose in accordance with the information brochure.						
Storage conditions:	Ambient temperature. Protect against cold, heat and humidity.						
Warning reference:	Please consider the information brochure!						
User references:	EKASTU Safety GmbH guarantees the indicated achievement according to class and type. It is to be noted that the laboratory test values can considerably deviate from those, which are reached in practice. The user must read and understand all functional information. Use the Respiratory protective devices with this information brochure, the relevant valid statutory regulations and the safety requirements of the profession associations, particularly the regulations for use in accordance with DGUV Rule 112-190 resp. DIN EN 529 'Respiratory protective devices – recommendation for selection, use, care and maintenance – guidelines'.
